ASTIGMATISM.

What it Is, and How Corrected.

Astigmatism or Irregular Vision is one of the most common of all the refractive errors. It is due to the irregular curvature of the film known as the Cornea. Of course no instrument is sufficient to correct it, but in the hands of a thoroughly efficient and competent Eye specialist the ophthalmometer reveals the exact condition of the eye in a way that nothing else can If your eyes need attention have DR. IT'S ALL OVER NOW.

The Kissing Bug Captured and Preserved in Alcohol.

Mr. Burrell H. Marsh, representative of the Standard Oil Co., with headquarters in Winston, and whose home is in Richmond, Va., was in the city this morning and showed us the kissing bug. Mr. Marsh captured the bug himself, and pickled him in alcohol. He found his bugship entangled in some vines a short distance out from Richmond early one morning recently and had no trouble in making him a prisoner.

As we have remarked, the bug was shown to us preserved in alcohol. He was dead and securely corked in a bottle. This is probably the safest way to carry him around. What is he like?

He is about an inch and a half long, with wings which fold very prettily across his back. He has long legs with feet arranged so they will leave no track on the most tender and delicate face. His head is not prepossessor reassuring in appearance. This is probably the reason he does his work in the night. It is an oddly shaped, hideous looking thing, capped with a corrugated crown in the center which rises a circular crest, similar to the comb of a rooster. His mouth-piece is a kind of bill with two or three joints in it and very sharp. It is with this that he goes down after the succulent sweetness of ruby lips.

The color of the bug is a dark brown, with brighter spots on the wings. Underneath his body the color is the same with very small, bright spots, spaced evenly apart.

This, as we saw it through the bottle, is a pretty correct description of the kissing bug, and is about as complete as we could give it without the aid of a magnifying glass.

ANOTHER ICE FACTORY (?).

D. H. King, Winston's Ice Man, Looking This Way.

C. M. Thomas, representing D. H. King, Winston's popular ice manufacturer, was in the city this morning viewing the "ice field" o'er. He was prospecting here with a view to removing D. H. King's ice plants here from Winston.

Mr. King's excellent service in the Twin City has made for him a trade that is rapidly outgrowing the capacity of his present plants there and they will soon be replaced by one large plant with a capacity sufficient to supply the demands of the trade. The two small plants now operated there will be removed to some other town, and Greensboro stands a chance.

The Telegram believes that Mr. King's ice factory would find a most hearty welcome here and would enjoy a large patronage from the start There are enough people in Greensboro who, when they pay for the cold stuff, would like to say about what time it would be delivered, and if it was perfectly satisfactory to the management, would like to say about how many times they could buy per day, to support a factory with a good profit to the proprietor.

Greensboro offers special inducements.

"Captain Dick" Is Here.

"Captain Dick" is here and ready for the battle of gala week. Last night he led his forces, which were at the Academy in full numbers, through the scenes of war as gallantly as though he and his comrades had been at it constantly. Another rehearsal will be held Saturday night. The Gate City Band will then rehearse their part. They will wear their beautiful, new uniforms the night of the play. Messrs Bertram and Willard left today for Winston, where a full rehearsal will be held tonight of "The Midnight Fire." The dates of these two plays are, "Captain Dick" Wednesday night. "The Midnight Fire" Friday night. Reserved seats for both plays will be on sale at J. B. Fariss' drug store Monday morning. Price 50 cents.

Too Much Blowing.

If the night engineers on the yards here had the misfortune to live near the railroad for a while, it is safe to say that the whistles on their locomotives would not shriek nearly so often nor so loud. Such weather as this, when people sleep with the windows of their rooms open, it is extremely disagreeable and there is not a little complaining coming from the section near the road in the western part of the city, where engines puff and whistles blow at all times of night. We hope for the sake of peace—and sleep—the engineers will have more regard for the ears of the would-be sleepers.

A Whopping Order.

W. Frank Blount, state representative for the W. W. Kimball Company, Chicago, is wearing a broad smile. The Baptist Female University at Raleigh have awarded to them the contract for 15 elegant pianos including a concert grand.

"Twenty of the leading makers in the United States were after the contract," said Mr. Blount, "but when the Kimball lion began to roar they took to the woods."

PEOPLE HIGHLY INDIGNANT

Presence of Soldiers Around Cleveland Not Welcomed.

THE MAYORS WILL HOLD MEETING

The Strike Situation Vastly Improved. Militia Will Not Be Withdrawn Until Danger Is Past.

By Wire to THE TELEGRAM.

Cleveland, July 27—The reports come from the suburban towns that the people are highly indignant over the presence of the militia. A meeting of the mayors of the surrounding towns will be held tonight to consider what measures it is best to take.

The strike situation is vastly improved in the city. Adjutant General Axlins says the troops will not be withdrawn until all danger of further uprisings is past.

Much satisfaction is expressed at the calling of a special meeting of the city council for tonight to effect a settlement of the strike. It is probable that the same committee will be appointed that acted during last month's strike. There is little doubt that President Everett will treat with that committee.

Teague-Weatherly Nuptials.

Mr. Ernest Teague, of this city, and Miss Flora Weatherly were married last evening at the home of the bride, three miles south of the city, the ceremony being performed by Rev. T. E Wagg, pastor of Centenary church.

The bride is a most accomplished young lady, the daughter of the late Mrs. Lou Weatherly.

Mr. Teague is the son of Mr. and Mrs. W. J. Teague who reside on East Washington street, and a popular and industrious young man

The happy couple start out in life with the best wishes of their many friends.

An Address at the A. & M. College.

Prof. J. Y. Joyner, of the State Normal School will deliver an address before the teachers and friends of the summer school in the chapel of the college tonight at 8:30 o'clock. A cordial invitation is extended to the public.

Tomorrow (Friday) Prof. M. C. S. Noble, of the State University, will be present to render such services in the Normal as time and occasion will permit, winding up the day with one of his inspiring addresses at night. The attendance increases daily.

Who Is William Hill?

A letter written by one William Hill and directed to "Mrs. Lula Taylor, Greenville, S. C.," was mailed in this city on June 17th last. The writer used the printed stationery of Mr. E. G. West, this city, and the letter has been returned to him marked "unclaimed." Mr. West knows nothing about the writer, William Hill, and asks the Telegram to aid in finding him, as the letter contains an express money order, which the said Hill would no doubt like to have.

Mrs. Lawrance Williamson Dead.

Mrs. Lawrence Williamson died at her home last night in Fayetteville. She was the daughter of W. E. Kyle, late general passenger agent of the C. F. & Y. V. railway, and one of the most accomplished ladies in the state.

Mr. and Mrs. J. W. Menifee, of New York, passed through here today enroute to Fayetteville to attend the obsequies.

Masons, Take Notice.

A regular communication of Greensboro Lodge No. 76, A. F. & A. M., will be held in their hall this (Thursday) evening at 8:30 o'clock. Business of special importance to come before the lodge and all members are urgently requested to attend. By order of C. A. Bray, S. W.
Wm. T. Gayle, secretary.

Can Supply Themselves Again.

Almost a solid train load of coke for the Steel & Iron Works here came in over the Southern yesterday. Some ore has been brought from Virginia, also, but the company is again able to get an ample supply of ore from the rich beds at Ore Hill and things at the furnace will continue to heat and move.

Late Trains.

The passenger train from the east, due here at 5:15 a. m., was delayed several hours at Selma last night, the delay being accounted for by a wreck on the Atlantic Coast Line near there. The train arrived here at 10:30 o'clock this morning. The southbound local, due here at 7:37 a. m., sidetracked here and waited for the late train.

Ten Dollars Reward.

A gentleman from a neighboring city lost a roll of bills on the street today between the Tom Rice Jewelry store and Ward's drug store. The roll contained four ten dollar bills and three fives. Ten dollars reward will be paid the finder on leaving the money with Chief of Police Scott.

NOTES FROM HIGH POINT.

Carl Johnson, of Concord, who has been visiting his aunt here, Mrs. Ed Caster, returned home last evening.

Sheriff Dorsett, of Lexington, and J. Woodell, of Raleigh, were guests in the city yesterday.

Boys selling fruits, candies, etc., meet the trains now. This is tough on the newsboys.

The father of B. B. White, the liveryman, is in the city for a visit of several days.

H. W. Grandhill, of Chambersburg, Pa., and R. W. Booker, of Lynchburg, Va., were in the city yesterday.

The labor union held their regular weekly meeting in the Jr. O. U. A. M. hall last night. A good attendance is reported.

Rev. A. W. Plyler, pastor M. E Church, Asheboro, passed through last evening on his way to Holt's Chapel to attend the district conference.

Miss Ella Lassiter, of Charlotte, who has been visiting the family of her brother, Section Master Lassiter, left last night for a visit to relatives in Lexington.

W. H. Dudley, the fruit dealer, who has been engaged in his trade here for some time, has sold out and will go into other business. Dr. McCanless, of Trinity, succeeds him.

Did you see the excitement the other night?—Doc Welburn standing on his head in the middle of the street ten minutes for ten cents. It is too bad, the boys say, that after this phenomenal act Doc did not get his money.

The round trip rate from here to Greensboro during the state firemen's tournament and gala week is only 50 cents—just half the regular first-class fare. No doubt hundreds from here will avail themselve of this opportunity to attend one of the grandest, if not the grandest celebrations, the state ever had. Prepare for us neighbor, we will be well represented.

Rome Rooks, who has been engaged in several different difficulties lately for which he was fined but didn't pay, and who has been eluding the officers for some time, was caught last evening and brought before Magistrate W. B. Steele for a hearing. The fines against him including the last arrest, amount to $22.52. Failing to settle the bill he was committed to the tombs over night, where he remains at this writing. It is more than likely that Supervisor Stanley will take charge of him—he hasn't given bond as yet.

A. C. English and Miss Davie White both of Trinity, were united in the holy bonds of matrimony at the home of the bride's father, J. J. White, yesterday evening at 5 o'clock, Rev. A. W. Plyer of the Methodist church of Asheboro, officiated. The bridal party came through the country to High Point and left on the southbound local for Asheville. Mr. and Mrs. C. N. English, of Cohutta, Ga., who were present at the marriage, accompanied them far as Salisbury on their way home. The groom is depot agent and telegraph operator at Trinity and is a young man of much promise. The bride is a very popular and accomplished young lady. The happy couple have many friends who will wish them much happiness. Allow us to extend congratulations.

They Have Got Right Down to It.

A UNIQUE ACCOUNT.

Loge Harris Paid to Look After the Legislature.

The investigation of the acts of the old board of agriculture goes merrily on in Raleigh, and some of the things unearthed make interesting and spicy reading. For a sample we call your attention to the following extract from the News and Observer:

By far the most unique account yet unearthed was that for the payment of $100 to J. C. L. Harris, in December last as chairman of the "legislative committee," the purpose and point of which can be fitly set forth only in the exact words of the record of the meeting which follow:

"On motion of Mr. King, Mr. Harris was asked to look after the legislature and that he be paid extra for the work to the amount of $100."

Hill King moving that J. C. L. Harris be asked to "look after" the late legislature, and that "he be paid extra for the work, to the amount of $100!" And all this while the members of that body have gone along in ignorance of the fact that they were "looked after," that when Loge hovered in the lobbies in his famous frock coat, kid goves and bed room slippers, it was really in the guise of a solicitous and more or less bothered guardian angel. And so Loge was really the inspirer of the Constitutional Amendment, the Jim Crow car law, the new election law and other things that made the heathen rage. For was not Loge "looking after" 'em? The strangest part of th's proceeding was that Loge was paid the $100 in December, according to the voucher, and did not peer in the wake of the legislature until January at the earliest. Ex-Secretary Ramsey could not tell what this looking after consisted of, though he recognized the voucher as an old friend.

It was also brought out that the board had paid Loge's license in the United States supreme court, though the other attorneys had not even received their expenses in the same case.

THURSDAY, JULY 27, 1899.

There are trusts and there are trusts. Today seems to be the day of trusts, and they are forming in every trade, profession and calling and seem to flourish everywhere. In Virginia an "office-holders' trust" has been discovered, and the Times says, that generally speaking, the affairs of government have been well conducted. Next!

The Charlotte Observer, and Daily Record and Evening Telegram of this city, have all three been sued for libel by the Messrs. Meadows, of Rockingham county. The papere were served on the Record and the Telegram yesterday afternoon and the suits are returnable to August term of superior court at Wentworth, at which time, we presume, the complaints will be filed and the amount sued for be made known.

The distinguished Nebraskan, Col. W. J. Bryan, who ran for president in 1896, has been criticised for taking sides in the Kentucky political troubles. The Colonel once before took a hand in trying to arrange political matters outside of his own state which lost him some friends. We refer to the time when he and Butler were trying to arrange for dem-pop fusion in this state. He would fare equally as well to let local politicians adjust their own local matters for themselves. That is our way of looking at it, but of course Col. Bryan can look at it as he pleases.

Some people have revived the talk of a candidate for governor. It is some time yet before the nominating convention, but while the brethren are expressing their preferences we want to reiterate our former statement that Chas B. Aycock, of Wayne, is the man for the place. He is clean, able, wise and courageous. R. B. Glenn, of Forsyth, is entitled, by reason of splendid service and sterling qualities, to consideration. To these two bold champions of democracy the state owes much. They should occupy the seats in the U. S. Senate now held down by Butler and Pritchard. Make Aycock and Glenn governor and lieutenant-governor respectively, then let them succeed Butler and Pritchard in the United States Senate.

Editor Bailey, of the Biblical Recorder, takes a very sensible and philosophical view of the constitutional amendment question, as he does on most questions. He says:

"We are no constitutional lawyer, and we have dismissed the question of the constitutionality of the amendment upon the ground that it is better and wiser and more patriotic to vote for it and do the best one can than not to vote for it or to oppose it. Besides we have heard eminent authorities say that it will be no easy matter to get the amendment into the courts. Likely enough its constitutionality may never be called in question if the people of North Carolina ratify it. But whether or not, it makes for deliverance and makes toward progress, and that is the main question."

THE MARVELLOUS RESOURCES

Of the Danbury Region, Stokes County—Life in the Mountains.

Staff Correspondence

Danbury, N. C., July 26, 1899—We arrived here Saturday afternoon. The air in the day is warm, but at night, delightfully cool and bracing, and inducing the most delightful slumber. Occasional showers refresh the crops which are most excellent.

In the evening about nightfall, when no clouds obscure the glamor of the firmament, nothing is so delightful as to sit on the veranda and watch the moon climb above the hill's crest in its silvery glory, letting fall its sheen over one of the most entrancing landscapes that ever inspired the bosom of poet or painter. No sound disturbs the stillness save the gentle rush of the Dan, the lulling gurgle of the whippoorwill ensconced in the hedge, or the whisper of the Katy-d'd in the trees. The softest, sweetest winds fan one's cheek, untarnished from some oaky knob, bringing suggestions of a cool, ferny nook on the mountain. Then to pick up the guitar, and with three or four sweet voices mingling with the thump of the instrument, pass away the evening in delight. Shakespeare's beautiful lines come to mind:

"Soft stillness and the night
Become the touches of harmony,"

or something to that effect. Life at Danbury, this hot weather, soothes the brain, quicts the nerves, and brings the blush of health back to the city-tired tourist quickly.

There is quite a wave of excitement perambulating in this section at present It is rumored that the Cones, of Greensboro and the Mebanes are going to erect a great cotton mill on the banks of the Dan here at an early day, and that a railroad, a narrow guage at least, will soon be constructed north from Walnut Cove or west from some point on the Norfolk & Western near Madison to reach the marvellous resources of this section. A representative of some company has been here for several days investigating the lay of the land, examining the water powers, and taking 30-day options on properties. Everybody is agog over the reports. It is said by those who are fully competent to judge, that the water power on the Dan at this place is as fine as could be found anywhere. We see no reason why capital should not be invested in the resources of this region. The hills are but sleeping beds of minerals, iron greatly preponderating. There is mica, manganese, hematite, soapstone and every useful rock that could be conceived of almost, here in inexhaustible quantities, and as fine, as pronounced by expert mineralogists, as any part of the country affords. Many of the mines were worked on a small scale years ago, the enterprise being abandoned only for lack of transportation. There are mineral springs within easy accessibility, would be worth fortunes to their owners Piedmont Springs and Moore's Springs are well known resorts, and are enjoying their usual good patronage. Besides the timber resources of this section are immense. The virgin forest awaits the axe and the saw The climate is the finest in the world. Typhoid never occurs, except when contracted elsewhere, and malaria is unknown. We are sure that the Southern Railroad, that great many-eyed corporate system, which has recently acquired possession of the western extension of the old C. F. & Y. V. road, will grasp the magnitude of the magnificent possibilities that are latent in the Danbury section and take measures that will lead to their development at an early day. P.

Hon. June Jones Arrested.

Chief of Police Apple, of Riedsville, came over this morning and carried back with him June Jones, a negro boy who has made Greensboro his home for several months.

June's lot would probably never have been cast in Greensboro but for the fact that he wielded a pistol around the cranium of a bitter rival in Riedsville some time ago. He became a prisoner yesterday afternoon, Chief Scott arresting him on a capias. He immediately resigned his position as drayman for J. N. Ingram at the latter's grocery store, and spent last night in the lock-up.

Cowardly Assault.

This morning about 3 o'clock some unknown parties threw rocks through the windows, breaking the glass, and against the door of the house, on Percy street, occupied by "Aunt Milley" Wharton and her crippled son. "Aunt Milley" is a worthy colored woman and her son is a helpless cripple.

The police will no doubt look into the matter.

Death of the Oldest Mason.

Died at the residence of Major J. M. Crenshaw, near Wake Forest, on Saturday morning last, Robert Elliott Harris, in the 96th year of his age.

Mr. Harris was born in Wake county on March 16, 1804, in the house in which he died.

He was, if not the oldest, among the very oldest Masons in the State. He was buried Sunday, with Masonic honors, in the family burial ground. —News and Observer.

BRYAN AND KENTUCKIANS.

His Letter Has Not Cleared the Situation to Any Great Extent.

Special to The Telegram.

Washington. July 27—The letter of Col. Bryan to the Kentucky democrats, has not cleared the situation there to any great extent. Kentucky democrats in the city say that while the letter may do some good, it is causing criticism among the opponents of Col. Goebel, who think that Mr. Bryan should not have taken sides with either faction, and should have kept out of the contest in the state.

Representative Berry, of Kentucky, one of the best informed members of the Kentucky delegation in the house, and a loyal democrat who is supporting Goebel in this election, is in Washington. In speaking of the situation in the state Mr. Berry virtually predicted the defeat of Goebel. He says that there is no use concealing the fact that the democracy in the state is badly split over Goebel's nomination, and that the outlook for restoration of harmony in Kentucky is not bright. The independent movement according to Mr. Berry is very strong, numbering about one-third of the democratic voters in the state. He thinks that there is hardly a doubt but an independent democratic ticket headed probably by ex-Governor Jno. Young Brown, will be placed in the field.

There is considerable talk among Kentucky democrats in Washington of the withdrawal of Goebel as the nominee, and the substitution of some less offensive candidate, one who could command the support of the united democracy of the state. There does not seem to be, however, much hope that this solution of the difficulty can be brought about.

The effect of the contest for governor upon the senatorial contest is a matter of considerable anxiety to both democrats and republicans. Senator Blackburn is a candidate for election, and is personally popular, but many of his friends fear that the defeat of state ticket might carry with it the defeat of the democratic legislative ticket also and insure the election of a republican senator to succeed Senator Lindsay. Democratic leaders outside of Kentucky, who have been seen, are apparently more interested in the saving of the legislature to the democrats than they are concerned in the fate of Goebel. If the latter should withdraw and thus clear the road for harmony it would give the leaders satisfaction.

A large excursion party from North Carolina arrived in Washington yesterday morning and are stopping at the National Hotel. The excursionists number about seventy-five ladies and gentlemen, and they come from Goldsboro, Wilmington, Kinston, La Grange and other points in North Carolina. Yesterday they spent the day visiting the executive departments and white house and other points of interest.

The United States Express Company has introduced to Washington the automobile in the form of a delivery wagon. It has thus far given entire satisfaction, and it is expected that about twenty-two of these delivery wagons will be put in operation here. The one now here is a handsome vehicle, s milar to other express delivery wagons of the company in point of style. The tires are of solid rubber, and the vehicles move noiselessly, and its capacity is about 12,000 pounds. It cost $2,000 and has a speed of thirteen miles an hour. One of the features of this express automobile is that it will run with ease over rough roads as well as over smooth roads.

Col. Bryan may visit this section of the country next October. It is stated by Virginia people in Washington that an effort will be made to get him to deliver the opening address of the carnival to be held at Stanton the first week in October.

Much interest has been caused here by the statement that Senator Pritchard is trying to secure the removal of the postmaster at Wilmington. During the last state campaign the postmaster offended Senator Pritchard by his political course, advising white men to unite in ridding Wilmington of negro domination. Governor Russell is said to favor the postmaster. Nothing is known about the intentions of Senator Pritchard at the postoffice department, and thus far he has not asked for the removal of Mr. Chadbourn.

Burns Gets $1,071 Damages.

Asheboro, N. C., July 26—The case of Burns against the Railroad ended this evening at 7 o'clock. It was ably argued on both sides for two days. The judge's charge was practically what was expected. After five hours' deliberation the jury returned a verdict for one thousand and seventy-one dollars in favor of the plaintiff. The plaintiff has moved for a new trial on the grounds of insufficient damages. The motion is to be taken up for argument tonight.

The Sapphire Country.

Along the cool southern slopes and table lands of the Blue Ridge mountains in Western North Carolina, at an average altitude of 3,000 feet, is a country full of delightful surprises to the tourist, sportsman and health-seeker. No other state contains so many clear, cold and wonderfully picturesque streams, so many grand water falls, such wide sweeping mountain views, and such beautiful lakes as the Sapphire Country, where until recently there was no provision made for the accommodation of visitors to this delightful section. Now, however, entertainment is offered on Lake Sapphire, Lake Fairfield, and on the summit of Mt. Toxaway, the view from the lodge there being the most extensive of any mountain point of vantage in North Carolina.

Parties desiring to visit this beautiful country can purchase round trip tickets to Brevard, N. C., via Hendersonville, where coaches convey you over good roads making the drive one of extreme pleasure. For full information call on any agent Southern Railway, or write R. L. Vernon, traveling passenger agent, Charlotte, N. C., or W. A. Turk, general passenger agent, Washington, D. C.

J. C. TOWNSEND, 1200 Arch strreet.

Some men have an idea that it is beneath a man's dignity to trouble himself much about his personal appearance. If anything is said upon the subject they snort with disdain, and say they leave vanity to the women.

A man never made a greater mistake. A man should not only be at all times neatly dressed, but also clean and wholesome of body. The man who is so is the man that succeeds. The man who does not care a copper about his dress, whose face is rendered unsightly by pimples, blotches and eruptions, whose complexion is sallow, whose eyes are heavy, whose shoulders are bent and whose carriage is slouchy, does not succeed, either in business or in social life. A man like that should be sentenced to live for thirty days in a room where all the walls were mirrors. He would then get sick of his own unwholesomeness, just as other people do. Such a man should have an honest protrait that did not flatter him always before his eyes. It only costs a trifle for a man to dress well, and it costs still less for him to keep clean, wholesome and healthy in a physical way. When a man's stomach is right and his digestion is right, his blood will be pure and rich and he will be wholesome and healthy physically. Dr. Pierce's Golden Medical Discovery makes a man right in every way by making his stomach, liver and digestion right. It gives him a hearty appetite and facilitates the assimilation of the life-giving elements of the food. It drives out all impurities from the blood. It is the great blood-maker and flesh-builder. It does not build flabby flesh or make corpulent people more corpulent. Honest druggists don't advise substitutes.

"I was tired all the time," writes J. Edward Davis, Esq. (care of Geo. F. Lasher), 147 No. 10th St., Philadelphia, Pa. "In the morning I felt as if I had never slept and was too languid to eat. I was troubled with pimples, boils, dizzy head, backache and hollow cheeks. At one time I had twenty-eight boils on my back. I was very despondent and thought nothing would cure me. Then I commenced to take Dr. Pierce's Golden Medical Discovery. This medicine, together with Dr. Pierce's Pellets, cured me. Folks now say: Hello, Ed! What's become of your pimples?'"

New Methods in Advertising.

Railway companies are adopting new and unique methods of advertising, as is demonstrated by the publication in the Four Track Series of the New York Central Road, of what is now becoming widely known and somewhat famous, "A message to Garcia," by Elbert Hubbard, of the Phillistine Magazine, which itself is a peculiar and interesting publication as relating to magazines of the present day.

This article is attracting widespread attention, and has been answered by a writer in "The Mirror," published at St. Louis, under date of June 15, 1899, entitled "A Message to Hubbard," which gives the other side of the American employe.

The Southern Railway, the leading Southern system, spreading from Washington to the Mississippi River, and gridironing the South, and the only line to "The Land of the Sky" section of western North Carolina, has also issued a publication out of the ordinary, in the shape of an attractive booklet entitled "A Night on Mount Mitchell," by Henry Litchfield West, one of the leading editorial and political writers of the Washington Post, a paper widely and favorably known for the ability displayed in its editorial and political columns. This story is a description of an ascension to the very top of Mount Mitchell, which is the highest mountain peak east of the Rocky Mountains, and 400 feet higher than Mount Washington, upon which has been erected a monument to Professor Mitchell, after whom the mountain was named.

The story is replete with interest and thrilling in detailing a trip which may be taken by any traveler for health or pleasure, and reminds one of Talmage's description of Lookout Mountain, when he stood upon its heights and delivered the following oration, which is reproduced for its graphic description of a location famous in American history:

"The carriage wound its way up, up, up. Standing there on the tip-top rock, I saw five states of the Union. Scenes stupendous and overwhelming. One almost is disposed to take off his hat in the presence of what seems to be the grandest prospect on this continent. There is Missionary Ridge, the beach against which the red billows of Federal and Confederate courage surged and broke. There are the blue mountains of North and South Carolina. With strain of vision there is Kentucky, there is Virginia. At our feet, Chattanooga and Chickamauga, the pronunciation of which proper names will thrill ages to come with thoughts of valor and desperation and agony. Looking each way, and any way, from the top of that mountain, earthworks, earthworks—the beautiful Tennessee winding through the valley, curling and coiling around, making letter S after letter S, as if that letter stood for shame that brothers should have gone to massacre with each other while God and nations looked on. I have stood on Mount Washington, and on the Sierra Nevadas, and on the Alps, but I never saw so far as from the top of Lookout Mountain."

Copies of this booklet and other interesting publications on "The Land of the Sky" section and "Lookout Mountain" may be obtained from Mr. W. A. Turk, General Passenger Agent Southern Railway, Washington, D. C.

Knitting Mills for Winston.

The Winston Knitting Mills of Winston-Salem was granted articles of incorporation by the secretary of state yesterday. The incorporators are T. J. Wilson, M. D. Bailey, Fred Bailey and Reginal Bailey. The capital stock is $5,000. The company is authorized to manufacture knitted cotton, wool and silk goods, shirts, drawers, underwear, and hosiery of all kinds.—Morning post.

A reduction in the price of rubber shoes is a sort of gum-drop.

It's only right that the bill collector should treat his victims with due respect.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by C. E. Holton.

"That new servant of ours," said Wigwag, "reminds me of the European Powers." "How so?" asked his unsuspecting wife. "Because she's principally engaged in the disruption of China."

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating tonics. Price, 50c.

"I think," said the near-sighted mosquito, "I'll present this little bill of mine." The marble statue never moved a muscle, for it knew that it would be impossible to get blood from a stone.

Mr. A. Saunders, writing from Cocoanut Grove, Fla., says there has been quite an epidemic of diarrhoea there. He had a severe attack and was cured by four doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says he also recommended it to others and they say it is the best medicine they ever used. For sale by C. E. Holton.

There's a man down town who just dotes on rainy weather. His name's MacIntosh.

Thomas Rhoads, Centerfield, Ohio, writes: "I suffered from piles seven or eight years. No remedy gave me relief until DeWitt's Witch Hazel Salve, less than a box of which permanently cured me." Soothing, healing, perfectly harmless. Beware of counterfeits. Howard Gardner.

"Every man is what he makes himself," says the Manayunk Philosopher. "Just shout 'Rubber!' in a crowd and see."

DeWitt's Little Early Risers benefit permanently. They lend gentle assistance to nature, causing no pains or weakness, permanently curing constipation and liver ailments. Howard Gardner.

Naturally Yale and Harvard are sore over their defeat in England, and old Penn is mightier than the sore.

"What might have been"—if that little cough hadn't been neglected—is the sad reflection of thousands of consumptives. One Minute Cough Cure cures coughs and colds. Howard Gardner.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine, and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on C. E. Holton, druggist, and get a trial bottle free, Regular size 50 and $1. Is It Right for an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this remedy in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by C. E. Holton, druggist.

The difference between your rheumatism and your employer's gout is equal to the difference in your respective incomes.

A diseased stomach surely undermines health. It dulls the brain, kills energy, destroys the nervous system, and predisposes to insanity and fatal diseases. All dyspeptic troubles are quickly cured by Kodol Dyspepsia Cure. It has cured thousands of cases and is curing them every day. Its ingredients are such that it can't help curing. Howard Gardner.

A certain laundry in west Philadelphia is located next door to a church. A striking example of cleanliness next to godliness.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back or weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by using Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c a bottle at C. E. Holton's drug store.
